2012 Suggested Retail Pricing on Premium Instruments

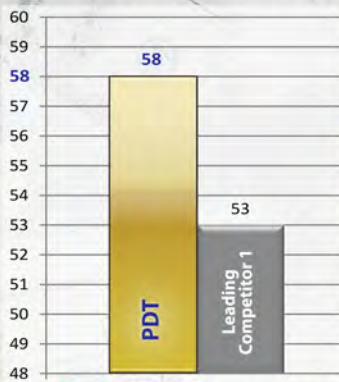

Higher cost does not guarantee better quality.

Receive extra value up front. Free goods require invoices to be mailed, or faxed, patience while you wait and time to do the administrative work.

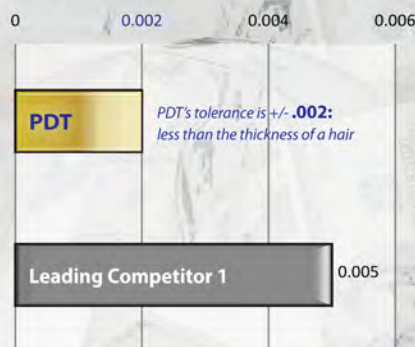

PDT offers superior quality for the BEST value!

Hardness Test Results in Rockwell C from Independent Lab

Harder, tougher PDT steel means blades can be made thinner, do not have to be sharpened as often, and will last longer than leading competitor's best steel.

Blade Thickness Variance Test Results from Independent Lab

Quality = Superior Materials + Consistency

100% Made in the USA!
It Does Matter!

Handmade products that last!

It's that simple!

**Be amazed how easy instrument sharpening can be! Best value-priced system on the market!
You will be completely satisfied or your money back!**

PDT FlipTop™ Cassettes

NEW! Catalog

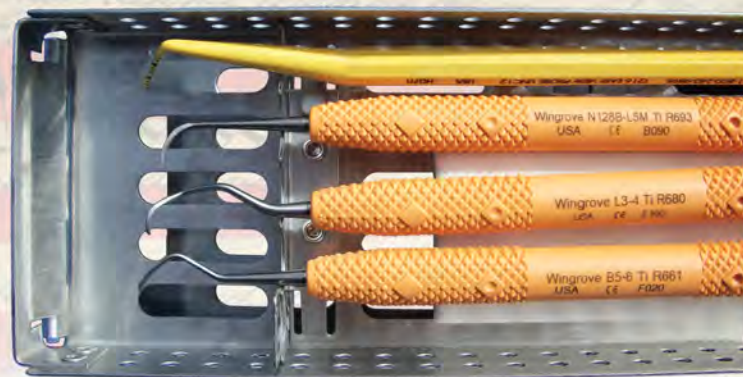

LiftOut (L) rack & silicone retainer strips instead of an additional rack.

Double rack (D) has a LiftOut rack and a fixed rack below. The D series also has a utility, open area.

A **NEW** FlipTop™ Cassettes Catalog, customization menu, sterilization instructions and video demonstrations are now available at pdt dental.com

FlipTop™ Cassettes are categorized by the number of instruments they will hold, 5-22. The Series A, B, C, D, & E are designated for size, smallest to largest. Each series is available in a Fixed (F), LiftOut (L), Double Rack (D) or a Utility (U) no rack, open design.

Wingrove™ R900 "Go-To" Implant Set

Meet every implant maintenance challenge with this set. Wingrove™ Titanium implant blades are uniquely processed solid USA medical grade titanium so they will not scratch implants. This eliminates the challenges introduced by the harmful debris left behind by plastic implant scalers. Wingrove™ Titanium instruments also have thinner, more durable blades that can be sharpened.

Set includes: R661, R680 & R693. A dedicated sharpening stone, EasyView probe, and a T005A-F FlipTop™ Cassette.
